

Doug Stevens, AIA, CCS

Principal

Doug began his relationship with BNIM Architects in 1978 and was named an Associate in 1985. After an eight-year departure as co-founding Partner of his own firm, he returned in 1994 and provides architecture services today as a BNIM Principal. He led one of the firm's

five design studios for four years and currently serves BNIM Architects' Business Operations Group.

Doug offers a unique enthusiasm for project excellence and successful client services. His range of skills includes project design, management, technical aptitude and a broad knowledge of the construction process. He also serves as a mentor to others with strengths in project leadership, cost control, schedule adherence, and phased project delivery.

Doug's experience includes projects of varying scopes and sizes, but his extensive expertise is with large, commercial, mixed-use, and corporate projects. He also has a considerable amount of experience in development land planning, space planning, programming and design. He is particularly adept at working with complex design and management teams requiring special attention and coordination to ensure projects meet the clients' full range of expectations.

Doug has played a key role on a number of award-winning projects at BNIM Architects such as H&R Block World Headquarters, One Kansas City Place, and ARCO Oil and Gas Headquarters.
