William Trakas

bnim ASSOCIATE | ARCHITECTURE

Throughout his career William has focused on using design to better the everyday life of the people who live, work, and play in the environment that surrounds us. He believes that through a collaborative design process and rigorous research-based approach we can drastically improve our human condition. This is true from the products we use, the buildings we inhabit, and the cities we live in. William has been able to demonstrate this philosophy through of a variety of project types and scales notably, but not limited to: Single Family Residential, Multi-Family, Mixed Use, Corporate Office Interiors, Education, Hospitality, and Government.
