David Amstutz AIA NCIDQ

bnim ASSOCIATE | INTERIOR ARCHITECTURE

David Amstutz is an Associate and licensed interior architect in BNIM's Kansas City office. David provides a range of experience including workplace, cultural, and housing design. David is fascinated by how things work and how components come together. He is inspired by how the resulting products and built environments positively shape the individuals who interact with them and the ecosystems they inhabit. He searches for innovative solutions that foster growth from limited resources and bring hope and joy to every story.

At BNIM, he has served as an integral team member for the renovation of Reconciliation Services at 31st and Troost in Kansas City, MO; the United Way of Greater Kansas City Office in Kansas City, MO; the renovation of Leawood Presbyterian Church in Leawood, KS; and the Mira Mesa Epicentre for the County of San Diego.
