Building Positive: A Four-In-One-Prototype  
Kansas City, MO

Washington University - East Campus  
Implementation Planning and Parking Garage  
St. Louis, MO

## Josh Harrold AIA NCARB

**bnim** PRINCIPAL

Josh Harrold is a Principal at BNIM with over two decades of experience creating a body of work that has received regional and national awards. Josh is focused on the intersections of architecture, landscape, interiors, objects, and technologies, with a mission to improve the relationship between people's needs, desires, and capacities in the built environment. Josh is an idea-based architect who operates between the duality of equaled and bound excitement and focus, idealism and pragmatism, physical and metaphysical. He believes design is essential to quality of life and rooted in thorough analysis, rigorous investigation, and meticulous execution.

Most recently, Josh applied this approach to the design of the Blunt Hall Addition and Renovation and Ozarks Education Center at Missouri State University; the new Kansas City International (KCI) Airport Parking Garage; the master plan and renovation of the Springfield Art Museum; and the new Fine Arts + Design Studios and Career and Technical Education Center at Johnson County Community College.
