Claire Im RA LEED AP BD+C

bnim ASSOCIATE | PROJECT ARCHITECT

Hyeonji "Claire" has experience in a wide range of scales, locations, and functions such as high-rise residential buildings in Chicago and Korea, and mixed use high rise buildings in China. Claire is especially interested in the interdisciplinary design approaches using computational design methods and robotic fabrications. She brings strong management and critical thinking skills to projects at BNIM, where she has been instrumental across projects in and around San Diego, including JCNI P7 Apartments, the CSU San Marcos Wellness & Recreation Feasibility Study, and Ivy Senior Apartments.

Claire received a Master of Design Studies with a concentration in technology from Harvard University and a Bachelor of Architecture from Illinois Institute of Technology.
