Joyce Raybuck AIA LEED AP

bnim PRINCIPAL

With 20 years in the profession, Joyce is a passionate and collaborative design leader, who produces research informed, human-centered projects from concept through construction. Clients gain value through her national and international expertise on innovative projects in higher education, embassy design, workplace design, and urban development. She values collaborative partnerships and excels in delivering design excellence on challenging and complex projects.

Alongside her design leadership, she has championed firm efforts in implementing BNIM's 2020 Sustainability Action Plan and annual sustainability report, *Subject To Change*. She also serves as an advocate for sustainable policy in Kansas City, supporting resolutions to implement positive change through climate action and community health and resiliency. For her advocacy work, she was awarded the AIA Kansas City President's Award.

Joyce has been engaged in academia as an Adjunct Professor at the University of Nebraska – Lincoln, an invited design critic for universities across the U.S., and regularly lectures on the intersection of design and environmental issues. She currently serves on the national AIA COTE Leadership Group.
